

Lecturio

Assessments: New Uses for an Old Tool

November 2, 2022
Online Seminar

Learning Objectives:

1

Plan assessments to support and measure learning.

2

Align assessments with objectives and content.

3

Incorporate best practices in creating and delivering assessments.

4

Review assessments to ensure effectiveness.

Assessments: Definition & Purpose

**How do you use
assessments? List a few
examples in the chat!**

Tell us in the chat!

QUESTION

Forms of Assessments

- Assessments include more than just evaluative exams.
- They can be a valuable learning tool!

Purpose of Assessments

1. Harden RM, Laidlaw JM. Essential Skills for a Medical Teacher: An Introduction to Teaching and Learning in Medicine. Elsevier Health Sciences; 2016. 305 p.

Cognitive Foundations

- Formative assessments can be used to scaffold skills and improve **metacognition**
- Incorporate **spacing** and **interleaving** to improve retention and comprehension
- **Feedback** corrects misconceptions, reinforces correct answers, and improves metacognition

Insights from Neuroscience

- As information is retrieved, neural pathways are strengthened by changes in several cellular processes.
- Spacing of retrieval events allows for consolidation of neural pathways.
- Retrieval with feedback helps establish effective neural cross linkages.

Test-Enhanced Learning (TEL)

Test-Enhanced Learning (TEL)

Test-enhanced learning is the idea that the efficacy of **remembering concepts** or facts is augmented by:

- **Retrieving** concepts/facts from the memory.
- Increasing long-term **retention** of those concepts/facts.

TEL Benefits

1

Effective across **various learners** and **assessment types** (1).

2

Improve metacognition and the retention of knowledge.

3

Allows students to **reinforce** specific areas

Augmentation of Test-Enhanced Learning (TEL)

When assessments promote:

Spaced Repetition

Interleaving

Feedback

We see improved results in:

Poll

1

One of the benefits of test-enhanced learning (TEL) is that it:

- a. Is effective across various learners
- b. Encourages memorization
- c. Reduces metacognition

Poll

1

One of the benefits of test-enhanced learning (TEL) is that it:

- a. Is effective across various learners
- b. Encourages memorization
- c. Reduces metacognition

Practical Implementations of TEL

- Incorporate frequent quizzes to support **retrieval**
- Have students **generate** “summary points” during or after a class
- Explain the testing effect to increase student **metacognition**
- Keep it **low stakes**
- Emphasize the importance of your **learning objectives**

U-Behavior

A learning and teaching method that uses **platform-based delivery** and tracking of quizzes to promote optimal student study behaviors and practices.

U-Behavior

Grading incentives reward **Spacing** and **Interleaving** leading to better long-term **retention** of the material!

1. McKenna K, Pouska B, Moraes MC, Folkestad JE. Visual-Form Learning Analytics: A Tool for Critical Reflection and Feedback. Contemp Educ Technol [Internet]. 2019 Jul 12 [cited 2022 Feb 16];10(3):214–28. Available from: <https://www.cedtech.net/article/visual-form-learning-analytics-a-tool-for-critical-reflection-and-feedback-6244>

The AAIMS Model

- The mid-term and final exams were converted into 3 interval cumulative tests per 11-week term
- 10 Friday afternoon non-cumulative serial summative weekly quizzes
- Modular **mastery-based** system- differential progression- each student's test covered only the subjects they were taking

Ideas from our participants

Designing Assessments

Formative vs. Summative Assessments

Formative	Summative
<ul style="list-style-type: none">● Low-stakes evaluations● Leverage to augment long term retention of knowledge● Improves metacognition	<ul style="list-style-type: none">● Traditionally higher-stakes assessments● Increasingly used as serial lower-stakes assessments● Requires the selection of assessment instruments which are valid & reliable(1).

The Value of Well-Designed Assessments

Well-designed assessments

- Support the learning process
- Aid decision making (e.g., determining completion and need for remediation)

Poorly-designed assessments

- Do not gauge student learning
- Create frustration for students and faculty alike

Planning Assessments

Planning Assessments

Involves determining the need for instruction and analyzing both the **learners** and the **context** for learning

Modified from AVIDesign(1)

Benefits of Technology

Videos and Well-Written Learning Objectives

The screenshot shows a video player interface. The video title is "Acute Ischemic Stroke: Major Treatment Types" by Roy Strowd, MD. The video content shows a presenter standing in front of a screen displaying "Major Treatment Types for Acute Ischemic Stroke". The screen lists two types: IV tPA (tissue plasminogen activator) and IA Thrombectomy (intra-arterial intervention with clot removal with/without balloon angioplasty or stent placement). The video player has a progress bar at 0:01 / -10:52 and a 1x speed control. Below the video player are buttons for "ASSIGN", "Bookmark", "Transcript", "Objectives", "Materials", "Notes", and "Report". On the right side, there is a "BOOKMATCHER" search bar and a "Learning Objectives" panel. The "Learning Objectives" panel lists four objectives: "Describe the types of major interventions for acute ischemic stroke", "Identify the primary purpose for obtaining a CT scan of the brain in a patient presenting with a stroke", "List the absolute and relative contraindications to tPA", and "Describe the approach to endovascular therapy for a stroke". Below the objectives is a "Playlist" section with 28 videos, including "Acute Ischemic Stroke: Major Treatment Types" and "Case: 45-year-old Man Presenting with a Stroke". At the bottom right, there is a "Need help?" button.

BOOKMATCHER Search

Q Search / Stroke and Intracranial Hemorrhage / Acute Ischemic Stroke: Major Treatment Types

Major Treatment Types for Acute Ischemic Stroke

IV tPA	IA Thrombectomy
tPA: tissue plasminogen activator	IA Intervention: intra-arterial intervention with clot removal with/without balloon angioplasty or stent placement

Need help?

This panel shows a zoomed-in view of the "Learning Objectives" section. It lists four objectives: "Describe the types of major interventions for acute ischemic stroke", "Identify the primary purpose for obtaining a CT scan of the brain in a patient presenting with a stroke", "List the absolute and relative contraindications to tPA", and "Describe the approach to endovascular therapy for a stroke". The third objective, "List the absolute and relative contraindications to tPA", is highlighted with a green checkmark, indicating it has been completed.

Learning Objectives

- Describe the types of major interventions for acute ischemic stroke
- Identify the primary purpose for obtaining a CT scan of the brain in a patient presenting with a stroke
- List the absolute and relative contraindications to tPA ✓
- Describe the approach to endovascular therapy for a stroke

What is one of the absolute contraindications to tPA for acute stroke?

- ☐ Systolic blood pressure of 165
- ☐ Diastolic blood pressure of 100
- ☐ Previous ischemic stroke 1 year ago
- ☐ Open heart surgery 1 week ago
- ☐ Hip replacement surgery 1 month ago

SpacedRep Quizzes

help students retain information and understand what they really know. Helps faculty gain insights into what students need more help with.

A Valuable Tool for Self-Assessment and Review

Summary Note Pop Up: asks you to summarize the key points after watching a video lesson

The image shows a video player interface with a dark background. A white pop-up window titled "Make a Summary Note" is centered on the screen. The window has a close button (X) in the top right corner. Inside the window, the text "Write down all the key points that you can remember from this lesson." is displayed. Below this is a text input area with the placeholder text "Your Summary Note" and a prompt "Begin typing your summary note to save, otherwise skip." At the bottom of the window, there is an information icon (i) followed by the text: "Making and retrieving summary notes helps with your long term mastery of concepts. Click [here](#) to find out more about learning science and further settings." A green "SKIP" button is located in the bottom right corner of the pop-up window.

Real-Time Feedback for Faculty & Students

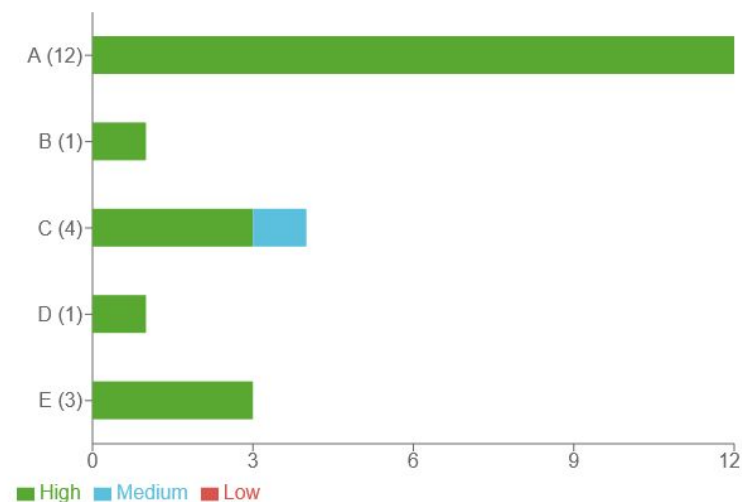

ID: 94416

Which of the following statements regarding the cervical segment of the spinal cord is TRUE?

- A** It is divided into more cervical levels than the actual number of cervical vertebrae. 57%
- B** It contains 8 cervical vertebrae. 5%
- C** The number of cervical spinal nerves is less than the number of cervical vertebrae. 19%
- D** The number of cervical vertebrae and cervical spinal nerves is the same. 5%
- E** It gives rise to 7 pairs of cervical spinal nerves. 14%

Learning Path
Configuration help
learning be more
targeted and therefore
more relevant to the
target demographic

The Learning Path Editor

The learning path is **editable** and can help educators plan and structure their courses including learning objectives, resources, assessments, and more.

Technology Augments Assessments in Many Other Ways:

- Configurable Qbanks
- Administration & monitoring of exam (e.g. randomization of questions; browser security)
- Data tracking of question performance

What technologies do you
employ in delivering and
tracking assessments?

QUESTION

Assessment Types

**Multiple
Choice
Questions
(MCQ)**

**Extended
Matching
Questions
(EMQ)**

**Open-
Ended
Questions**

Writing Reliable MCQ

- The stem should fully formulate the problem or question.
- The responses should all grammatically match the stem.
- The options “all of the above” and “none of the above” should be used sparingly.
- Negative phrasing should be avoided.
- Avoid extreme statements such as always or never.

Poll

2

What should be avoided when writing multiple choice questions (MCQ)?

- a. Negative phrasing
- b. Alignment with objectives
- c. Case studies

Result

2

What should be avoided when writing multiple choice questions (MCQ)?

- a. Negative phrasing
- b. Alignment with objectives
- c. Case studies

Entrustable Professional Activities (EPA) & Competencies

- **Assessment** must be considered through every step of this process.
- Assessment of these activities must embrace qualitative feedback based on **direct observation**.
- Includes 13 activities that all medical students should be able to perform upon entering residency.
- Used to develop **competency-based objectives** and guide effective clinical assessments.

Recommendations

Practical Implementation for **Instructors**

Harness the power of **technology**.

State your **expectations** clearly and comprehensively

Insure proper alignment of expectations (LOs) and assessments

Design and space tests for maximum effectiveness

Test often and in multiple ways

Practical Implementation for **Students**

Use the **objectives** to help you plan and prioritize your studying.

Remember that you **learn by retrieving**- assessments should be your friend not your foe

Spacing out your learning is key to long-term retention. At all costs **avoid cramming!**

Q&A Session

Leave your questions in the chat!

SUMMARY

- **Assessments** can **augment** and reinforce **learning**, not just measure it.
- **Technology** can be used to facilitate assessments, track students' progress and performance and help provide feedback.
- Assessments include **more than just written exams**.

Post-Event Handout

Important Post-Event Information

- **Follow-Up:** We will share the Assessments handout along with our follow-up survey, which we encourage you to complete.
- **Certificates:** An attendance certificate for the seminar can be requested on the survey form.
- **Summary Document:** A summary document of key strategies, including implementation tips and key points will be sent to all participants next week.

Durable Learning

with Peter Horneffer, M.D.

Lecturio's Implementation of Assessments

Join our **regional demonstration sessions** to learn how you can use Lecturio to **effectively assess** your students.

To participate, please choose a breakout room for one of the following **regional sessions**:

- USA, Canada, and Caribbean
- Europe and Middle East
- Latin America
- Africa
- Asia, NZ, Australia (Main Room)

If you are having trouble joining your preferred room, please let us know in the chat and we will transfer you to the correct session.
