The Plan

Details

Topic

Learning objectives

Main task, problem, or case that will be presented

Before Class

Pre-work for students
(e.g. links, videos, other content)

Materials to be available during class for reference
(e.g. links, books, printed materials)

Individual readiness
(e.g. online quiz before class)

During Class

Team readiness
(e.g. quiz at the start of class)

Clarification points
(Some may be prepared, but points may arise after seeing individual/team results)

Application:
Present task, problem, and/or case

Facilitation:
Prepare open-ended questions to encourage discussion

Key points that must be met during the session (be sure to refer to objectives)

Closure:
Feedback, clarification, review key points, summarize findings

After Class

Follow up activities
(e.g. reflection, peer evaluation, quiz, similar case)
